Measures of FUM and capital refer to data as at 31 December 2025, with percentage referring to growth vs 31 December 2024. 2. Normalised NPAT has been calculated by adding back certain non-cash items (e.g. amortisation of intangible assets) and one-off transaction and integration costs (all tax-effected where appropriate). Normalised NPAT includes fair value movements on seed investments. 4. Full year dividend comprised of interim dividend of 6cps and final dividend of 15cps. 5. 1. Management estimate of FUM relative to high-water mark (shown on a 100% ownership basis). FUM (including 100% of Taurus Funds Management, Attunga Capital, Kilter Rural, Argyle Group and Ark Capital Partners) is rounded, unaudited and includes non-fee-earning FUM but excludes non-fee-earning commitments.

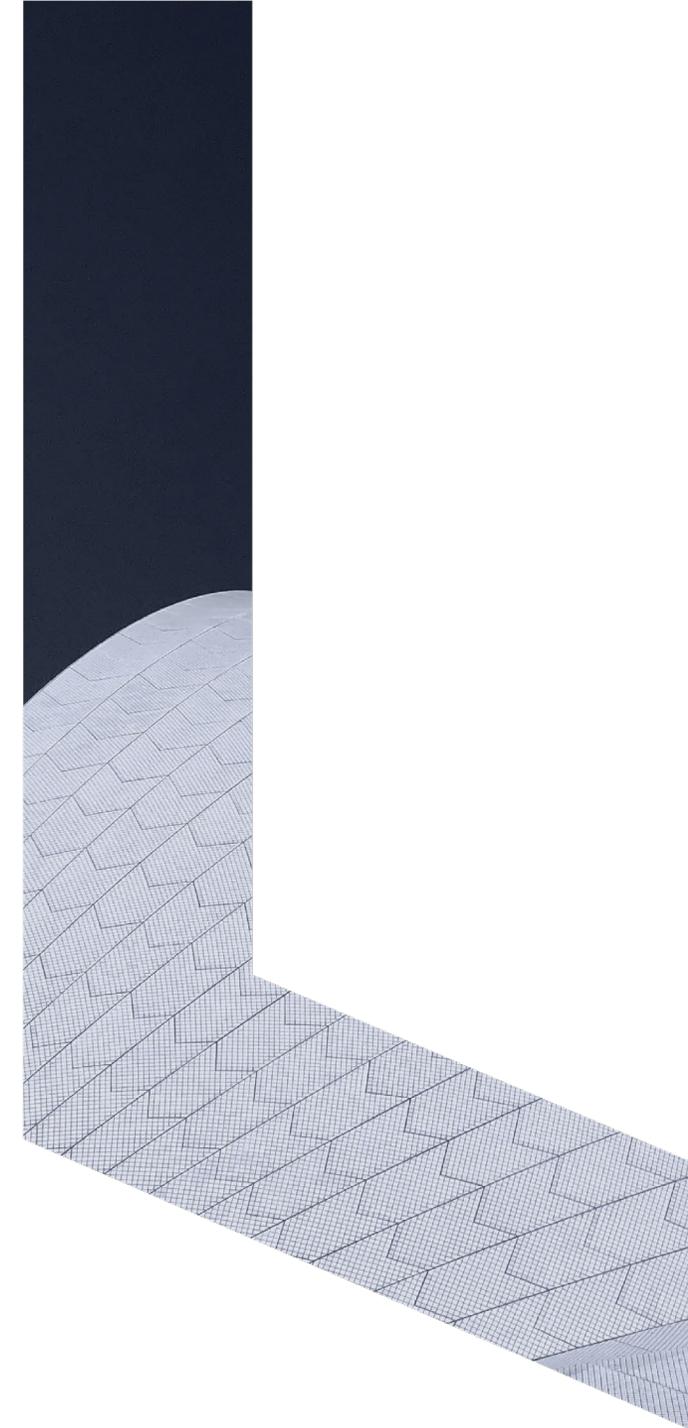

Resilient business model delivering for shareholders

1. NPAT refers to NPAT attributable to RPL shareholders. Normalised NPAT has been calculated by adding back certain non-cash items (e.g. amortisation of intangible assets) and one-off transaction and integration costs (all tax-effected where appropriate). Normalised NPAT includes fair value movements on seed investments. Management Fee NPAT reflects the portion of total NPAT generated from management fees (post deducting relevant non-controlling interests) and excludes any contribution from performance fees, other income, loan establishment revenue and costs, and any variable remuneration. 2. Dividends determined in relation to that 12 month period. 3. Management estimate of funds under management (FUM) for 31 December of relevant year (shown on a 100% ownership basis). FUM (including 100% of Taurus Funds Management, Attunga Capital, Kilter Rural, Argyle Group and Ark Capital Partners) is rounded, unaudited and includes non-fee-earning FUM but excludes non-fee-earning commitments.

1. Past performance is not a reliable indicator of future performance. Performance is net of fees and costs and is adjusted for capital flows including those associated with the payment of distributions/dividends and tax, share issuance and/or cancellations (option exercise, distribution/dividend reinvestment plan (pre franking benefits), share purchase plan, and equal access buyback) where relevant. Taurus fund returns reflect IRR. PM Capital Enhanced Yield return relates to the Performance Fee Option class. Argyle Water return relates to its Lead Series. 3. Performance fee is calculated on investment performance in relation to a fixed hurdle (such as an absolute value or RBA cash rate) or high-water mark only.

Performance fee-eligible FUM continues to grow and diversify

OF PERFORMANCE-FEE ELIGIBLE FUM SUBJECT TO FIXED HURDLE OR HIGH-WATER MARK ONLY²

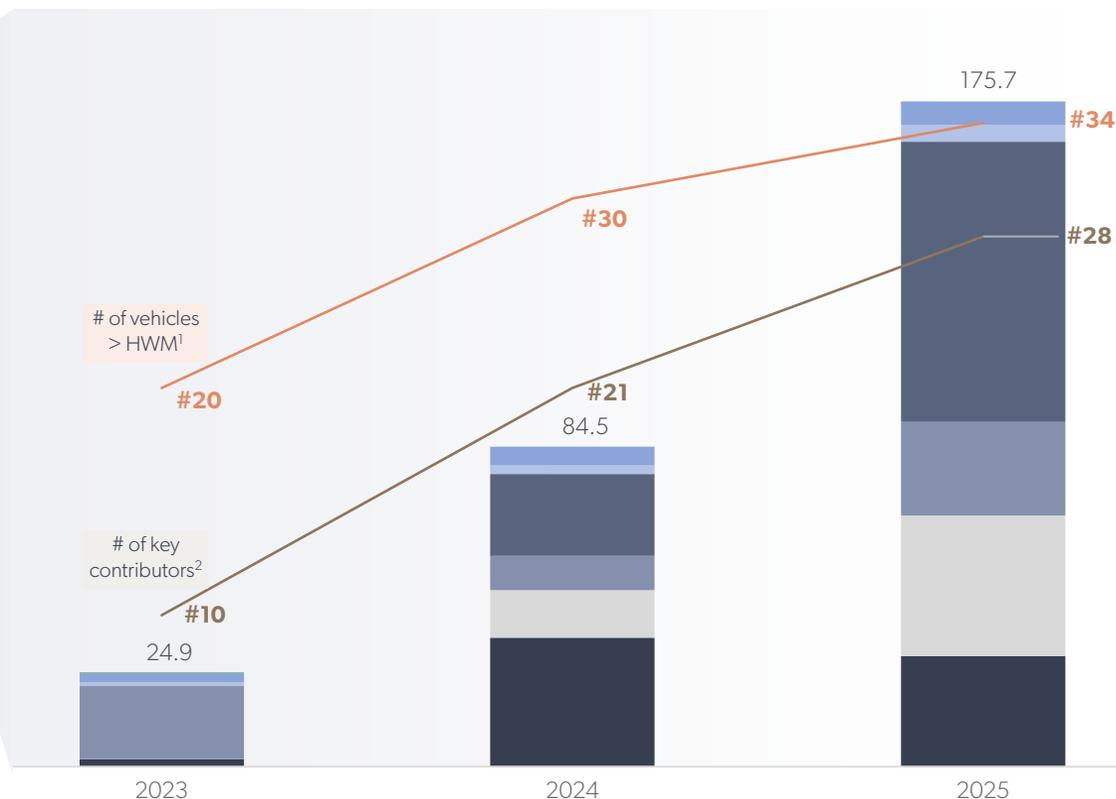

1. All performance fee-eligible FUM shown on a 100% ownership basis. FUM for December 2023 has been adjusted to include the staff FUM managed by Regal Funds Management where the rebate was reduced from 100% to 50% effective 1 January 2024. December 2023 includes 100% of all performance fee-eligible funds for Taurus Funds Management where Regal Partners has an economic interest in the performance fees. During 1H24, the Group purchased the carry interest from Taurus Funds Management ("Taurus"), such that all of Taurus' FUM now has the potential for generating performance fees for the Group. 2. Performance fee is calculated on investment performance in relation to a fixed hurdle (such as an absolute value or RBA cash rate) or high-water mark only.

- RPL's normalised expenses include the impact of any 'short-term incentive compensation'. The amortisation expense is spread over the vesting period for PSRs and fund units. It is also adjusted for annualised dividend yields (as the PSRs do not have entitlements to dividends during the vesting period and to account for the probability of not meeting vesting conditions) for PSRs.

- An LTI grant was approved by the RPL Board in 2H24 and 2H25. For accounting purposes, the fair value of the grant and related amortisation is summarised under 'Long-term incentive compensation' on the left.

- Amortisation of 'acquisition-related incentive compensation' is considered one-off in nature and accordingly, is not included in RPL's normalised expenses but is included in RPL's statutory expenses.
